ESRB Game Ratings & Content Descriptors

The Entertainment Software Rating Board (ESRB) ratings are designed to provide information about video and computer game content, so you can make informed purchase decisions. ESRB ratings have two parts: **rating symbols** suggest age appropriateness for the game, and **content descriptors** indicate elements in a game that may have triggered a particular rating and/or may be of interest or concern.

To take full advantage of the ESRB rating system, it's important to check both the **rating symbol** (on the front of the game box) and the **content descriptors** (on the back of the game box).

Titles rated **EC - (Early Childhood)** have content that may be suitable for ages 3 and older. Contains no material that parents would find inappropriate.

ESRB Helps Parents Choose the Right Games for Their Families

The ESRB rating system is designed to give parents the information they need to evaluate a computer or video game before making a purchasing decision. The ratings are not meant to recommend which games consumers should buy or rent or to serve as the only basis for choosing a product. Rather, parents should use the ESRB ratings in conjunction with their own tastes and standards and their individual knowledge about what's best for their kids.

ESRB recommends that parents learn about games before making a purchasing decision. Game reviews printed in newspapers and publisher web sites can be excellent sources of information. To search for games that are appropriate based on age categories and content, [use our online ratings search feature](#).

ESRB also urges parents to talk with their children about their favorite games. Playing the games with your children helps stimulate those discussions, and playing games as a family can also be a fun way to spend time together.
